

Prostate Cancer Awareness Week® Registration Form

Site ID Number:

Estimated date of screening during PCAW

Estimated screening time(s) during PCAW

We will not be conducting a screening during PCAW but will be having one on:

We will not be conducting a screening this year, but keep us on the mailing list Yes No

Participation Levels/Site requirements:

Screening Site lists their screening on the PCEC website and on the PCAW phone locator. The simple final report form indicating the number of hours and some demographic information about the men screened as well as the number of abnormal DRE's and PSA's is returned to the PCEC at the end of your screening.

Tracking Site returns the screening questionnaire forms, sends a list of their PSA results to the PCEC and completes the final report form.

Longitudinal Study Site fully utilizes the PCAW program by returning the screening questionnaire forms to the PCEC, sending blood samples to the central lab for PSA and cPSA processing and returning the final report form. These sites often participate in research projects.

Screening Costs

Get Checked Option:

PSA Only Processing: \$4.00/sample

Know Your Numbers Option:

PSA, Total Testosterone, and Total Cholesterol Processing: \$8.00/sample

Men's Health Option:

PSA, Total Testosterone, Total Cholesterol Processing (fasting recommended), HDL/LDL, Glucose, and Triglycerides: \$10.00/sample

Sites that return their PCAW Screening Questionnaires and PSA results are eligible to receive their screening supplies (PCAW Screening Questionnaire forms and PSA Lab Kits) for FREE.

I have read and understand the Criteria for Participation. I certify that this center can, and will meet said requirements. I wish to register this center for Prostate Cancer Awareness Week September 20-26, 2009.
