

Correspondence & Social Media Posts for Prostate Cancer Awareness Month!

Email to Patients and Caregivers

September is Prostate Cancer Awareness Month!

We know this is an unparalleled time in our history, but we have remained committed to providing the best care possible to all of our patients and their families!

According to the IQVIA Institute nearly 23,000 men may experience missed or delayed diagnosis of prostate cancer due to postponed or cancelled screening tests due to the coronavirus! We are determined to not let COVID-19 get in the way of men receiving PSA testing and monitoring their health! Please reach out if you are interested in getting tested for prostate cancer.

Social Media Posts

-September is Prostate Cancer Awareness Month! It is time for men to take charge of their health and talk to their doctor about getting checked for prostate cancer! #PCAM2020

-1 in 9 men will be diagnosed with prostate cancer during their lifetime. What are you waiting for? Talk to your doctor about getting checked! #PCAM2020

-1 in 41 men will die needlessly of prostate cancer. Do not waste any more time and talk to your doctor about getting checked! #PCAM2020

-Prostate cancer is nearly 100% survivable if caught in its earliest stages. Do not wait any longer! Talk to your doctor about getting a PSA test! #PCAM2020

-African American men have the highest prostate cancer incident rates in the world. They also have a mortality rate that is more than twice as high as that of any other racial group.

If you are at higher risk for prostate cancer, talk to your doctor about getting a PSA test!
